

# ADD-ONS

## Round-Up with ROUNDED CORNERS

Business cards should be a conversation starter - the subtle rounded edges on these cards will truly help you be remembered.

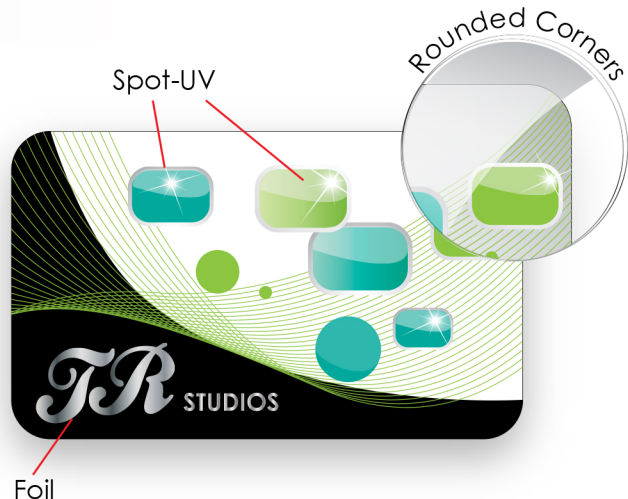

## Get Spotted with SPOT-UV

A layer of UV COATING is added only in **spots** where you want to make your colors, graphics, or logo stand out. Adds **extreme shine** that will enhance those particular areas only.

## Be Fantastic with FOIL

FOIL is used to accent small areas of your print, such as a logo or name. It is perfect for adding that touch of sophistication.

\*Pricing below is for the FOIL on 1 side only. Contact us for pricing on FOIL on both sides and additional FOIL colors.
